

PRODUCT SPOTLIGHT SHEET

Bodyline BPRS3 Plastic Primer

Plastic Primer is a high build flexible primer filler ideally suited for most plastic and metal substrates. Fast drying coating resulting in an easily sanded surface.

- Easily sanded, super build flexible primer
- Excellent adhesion onto most plastics and metals
- Highly flexible
- Fast drying
- Supplied with 2 nozzles

Suitable substrates: Correctly prepared bare metal & some plastics.

Bodyline aerosols are the ultimate method for the refinishing of small vehicle repairs.

They provide economical use of production time and manpower.

The surface must be clean, dry and dust-free

-  Shake aerosol for at least two minutes, after agitator ball is free.
-  Apply in cross coats from distance of 250mm from object
-  Drying time 5-15 minutes
-  Infrared compatible
-  Sandable with P400-P500
-  After use turn aerosol upside down and empty valve
