

PRODUCT SPOTLIGHT SHEET

Bodyline BZWS Zinc Weld Spray

Zinc Weld Spray is a zinc aluminium welding primer, suitable for repairing damaged galvanising. It provides outstanding corrosion protection and is resistant to high temperatures.

- Weld through primer with excellent adhesion
- Very good cathodic corrosion prevention
- Resistant to petrol, chemicals and weather influences
- Compatible with SPOT, MIG and TIG welding methods
- Supplied with 2 nozzles

Bodyline aerosols are the ultimate method for the refinishing of small vehicle repairs. They provide economical use of production time and manpower.

The surface must be clean, dry and dust-free.

Shake aerosol for at least two minutes, after agitator ball is free.

Degrease.

Apply in cross coats from a distance of 250mm from object.

Overcoatable after 15-20 minutes

After use turn aerosol upside down and empty valve.
